Florida's Moyer & Associates Expands Administrative Support to Local Government with CityView®

VICTORIA—Municipal Software Corporation, a leading developer of local government business process automation software and a wholly owned subsidiary of Municipal Solutions Group, Inc. (CDNX: MSM), announced today that Florida's Moyer & Associates purchased 12 additional CityView licenses in order to provide expanded administrative support services to a number of cities in Florida.

Moyer & Associates uses CityView to automate a wide range of municipal government business processes and makes them available to clients over the Web. The services Moyer's provides include business licensing, code enforcement and city planning. CityView is known for its ease of use and flexibility. Moyer & Associates first purchased three CityView Xpress Modules in April 2001. Later in 2001 they upgraded to CityView Enterprise and they continue to use CityView to serve their expanding base of local government clients.

Rob Bennett, President of Municipal Software commented, "We are thrilled to know that Moyer & Associates has confidence in our product, training program and customer service. They were one of the first clients to offer CityView as an ASP (Application Service Provider) over the Internet. We look forward to them implementing the Web capabilities of CityView 8.NET in the near future."

Moyer, Ward, Wrathell & Associates/Severn Trent (Moyer & Associates) is a diversified, professional services company providing innovative package solutions for a variety of public sector clients. The company has over 25 years of experience building quality relationships based on trust, integrity, unparalleled attention to customer satisfaction, and the desire to exceed client expectations. Moyer & Associates currently works with over 100 Florida governmental entities including special districts, municipal governments, and county dependent districts.

Moyer & Associates' key competencies lie in government financial consulting, management, information services, and operational services. A state-of-the-art information system provides the backbone for this centralized management facility, providing such diverse services as planning and licensing management, database and document management, workflow elements, fund accounting, and intra- and inter-net communications services.

"CityView provides the flexibility that we require when hosting an application that needs to custom fit the process of many unique municipalities. Adding the Web interface is the next step to helping us extend government to the residents," Steve Murray, IS Director of Moyer & Associates commented.

Municipal Software has provided government business automation solutions for the past 20 years and currently has modules automating almost every major functional area installed in North America in over 100 municipalities.
