District of Langford, British Columbia expands use of Municipal Software Corporation's CityView®

VICTORIA—Municipal Software Corporation, a leading developer of local government business process automation software and a wholly owned subsidiary of Municipal Solutions Group, Inc. (TSX: MSM), announced today that the District of Langford, British Columbia (Pop. 19,500) purchased eight additional licenses and an Annual Software Maintenance (ASM) Agreement for CityView Enterprise software.

The District of Langford, a client since 1994, uses CityView to automate many of its business processes including Planning, Building Permits, Business Licensing, Code Enforcement, Fire Management, Engineering and Mapping. The district has also purchased ArcIMS in order to deploy maps to the Web. CityView Enterprise is powerful automation software that is designed specifically for local government and easily converts paper systems and business processes into a computerized system without costly and time-consuming programming.

Mike Palmer, the IT manager said, "We have used and expanded our use of CityView ever since we were incorporated. It is an excellent system that continues to grow with our community and our IT and application needs."

Rob Bennett, President of Municipal Software Corporation commented, "Langford differentiated themselves when they took both a strategic and an enterprise perspective to CityView starting when they incorporated in 1992, a view far more common today than it was back then. They made the commitment then, and continue to this day, by continuing to coordinate their different data sources and business processes in order to gain every possible efficiency under the management of CityView. The leadership at Langford continue to demonstrate just exactly how this should be done, and we sincerely appreciate the support they have provided as new features and new versions have become available over the many years they have been our client."

Located on the southern end of Vancouver Island on Canada's west coast, the District of Langford is a young and growing community. It offers affordable housing and a wide range of services and amenities. Langford is within easy access of British Columbia's capital city, Victoria.

[About Municipal Software Corporation](#)

Municipal Software Corporation (www.MunicipalSoftware.com) was recently awarded one of 15 Government Technology Conference (GTC) Best Solutions Awards at the GTC West trade show in Sacramento, California. Best Solutions are exhibitor awards presented at the GTC to companies that develop a solution for a specific customer to help solve a particular problem. The solution must have resulted in significant benefits. It must have saved time, money or headaches and is worthy of recognition.

Municipal Software Corporation provides CityView®, a fully integrated suite of software products that assist municipal administrators and managers with scalable technology solutions for increasing municipal government productivity in order to service citizens and communities more efficiently and effectively. CityView Enterprise 8.NET™ is powerful automation software that is designed specifically for local government and easily converts paper systems and business processes into a computerized system without costly and time-consuming programming. CityView Enterprise 8.NET enables E-government. It

allows government to automate any business process internally and offer it over an Intranet or the Web with the click of a button. CityView Xpress is designed specifically for out-of-the-box departmental management and comes complete with ready-to-use forms and reports for a variety of municipal functions.
