Municipal Software Corporation is Named on 100 Top Canadian Software Organizations List

Victoria, British Columbia, April 22, 2003—Municipal Software Corporation, a leading developer of local government business process automation software and a wholly owned subsidiary of Municipal Solutions Group, Inc. (TSX-V: MSM), is proud to announce its place on the Branham 300 List as #79 of the 100 top Canadian Software Organizations.

“This is our first appearance on the Branham list. We’re proud to be ranked on the same list as companies such as Cognos and Corel,” commented Municipal Software Corporation President and CEO Robert Bennett. “This honour recognizes the revenue growth that we experienced during 2002. This growth is based on the continuing success of our industry-leading product CityView, fueled by many word of mouth referrals from our satisfied customers.”

The Branham300 is known as the most comprehensive and trusted source of the health of the Canadian Information Technology industry and is preminent the world over as the authoritative indicator for the industry in Canada. Now in its tenth year, the Branham300 continues to highlight the top Canadian Software and Services Companies.

In order to appear on the list, companies must be founded and headquartered in Canada, over 50% of their employees must be located in Canada, corporate direction must be determined in Canada and over 50% of their research and development activities are conducted in Canada. Municipal Software Corporation certainly fits these qualifications. The company is headquartered in Victoria, British Columbia and employs 38 of its 44 staff members in Canada, including its entire research and development department.

Municipal Software Corporation provides CityView 8.NET Enterprise. CityView 8.NET Enterprise is a true enterprise solution that integrates functions across an organization and enables e-government. CityView 8.NET helps government automate business processes such as Building, Planning, Code Enforcement, Business Licensing, Public Works, Emergency Management and more. Award-winning CityView integrates with existing systems, including financials, other departmental automation software, document management, IVR, cashiering, field data collection and GIS. With clients in 30 states and five provinces, and in business for over 20 years, Municipal Software Corporation is the one-stop provider of everything government needs for an enterprise solution, including the software, the training, the services and the post-purchase support.

The Branham Group (www.branhamgroup.com) provides "Go to Market" direction to the global Information Technology products and services companies; particularly those that want to harness e-Business opportunities. They act as an information channel for the future of business in a wired world, helping clients understand and leverage emerging and emergent technologies. Over the last decade, Branham has assisted world leaders in software, hardware and services. Through their vast understanding of the IT Market, they have been able to deliver meaningful insight to their clients in the areas of planning, marketing, and partnering.

About Municipal Software Corporation

Municipal Software Corporation (www.MunicipalSoftware.com) was recently named the worldwide gold medal winner in the Packaged Application Category of the Microsoft Certified Partner Awards. The announcement was made at Microsoft's Fusion Conference in Los Angeles on July 12, 2002.

Municipal Software Corporation provides CityView®, a fully integrated suite of software products that assist municipal administrators and managers with scalable technology solutions for increasing municipal government productivity in order to service citizens and communities more efficiently and effectively. CityView 8.NET™ Enterprise is powerful automation software that is designed specifically for local government and easily converts paper systems and business processes into a computerized system without costly and time-consuming programming. CityView Enterprise 8.NET enables E-government. It allows government to automate any business process internally and offer it over an Intranet or the Web with the click of a button.

CityView 8.NET Enterprise incorporates Microsoft's .net technology. The incorporation of Microsoft's .net technology allows CityView to take any form and report and save it as an .ASPX page that maintains the full functionality of the desktop form and allows it to be accessed through the Web. The .net technology allows Municipal Software Corporation to provide their users with a fully functional browser interface. CityView 8.NET Enterprise also incorporates ESRI's MapObjects to allow direct links to mapping data so users can deploy maps with their Web forms and reports by using ESRI's ArcIMS. CityView 8.NET Enterprise automatically completes the entire configuration necessary to make this work.

About Municipal Solutions Group Inc.

Municipal Solutions Group Inc. (www.MunicipalSolutionsInc.com) was formed in January 2002 as the public financing arm for Municipal Software Corporation, to provide the overall strategic leadership and guidance for Municipal Software and to build comprehensive solutions for local government on a global basis.
