Municipal Software Corporation Welcomes First Client in Utah, Major Clients in Florida and Washington

“CityView is the option that best meets the evaluation criteria and is the lowest overall cost on an on-going basis. Even if the software and implementation costs were similar, the improvements in efficiency and ability through the ease of use and customization capabilities would more than justify the decision.”

- Permitting Software Evaluation Committee of the City of West Jordan, Utah on comparing CityView to other products evaluated.

VICTORIA — Municipal Software Corporation, a leading developer of local government business process automation software and a wholly owned subsidiary of Municipal Solutions Group, Inc. (TSX-V: MSM), is proud to welcome their first client in Utah: the City of West Jordan (population approx. 105,000). The city will use Municipal Software Corporation’s CityView 8.NET Enterprise to automate their Permitting, Building, Planning and Engineering processes. The city plans to deploy several of these services over the Web in the future.

Municipal Software Corporation also welcomes St. Lucie County, FL and the City of Burien, WA to their family of over 130 clients across North America. St. Lucie County (population approx. 190,000) will use CityView to automate their Permitting, Contractor Licensing and Code Enforcement processes. The City of Burien, WA (population approx. 26,000) chose CityView to automate their Permitting, Building, Planning, Business Licensing, and SEPA (Shoreline Environmental Protection Agency)/Shoreline Administration processes.

“We are pleased to know that clients recognize the enormous potential of CityView to provide an entirely streamlined and customizable system for their business process automation needs. It’s great when they understand the long-term benefits and cost-savings to employing an application development tool like CityView in their organizations,” said President and CEO Robert Bennett.

CityView 8.NET Enterprise is a true enterprise solution that integrates functions across an organization and enables e-government. CityView 8.NET helps government automate business processes such as Building, Planning, Code Enforcement, Business Licensing, Public Works, Emergency Management and more. Award-winning CityView integrates with existing systems, including financials, other departmental automation software, document management, IVR, cashiering, field data collection and GIS. With clients in 30 states and five provinces, and in business for over 20 years, Municipal Software Corporation is the one-stop provider of everything government needs for an enterprise solution, including the software, the training, the services and the post-purchase support.

About Municipal Software Corporation

Municipal Software Corporation (www.MunicipalSoftware.com) was recently named the worldwide gold medal winner in the Packaged Application Category of the Microsoft Certified Partner Awards. The announcement was made at Microsoft’s Fusion Conference in Los Angeles on July 12, 2002.

Municipal Software Corporation provides CityView®, a fully integrated suite of software products that assist municipal administrators and managers with scalable technology solutions for increasing municipal

government productivity in order to service citizens and communities more efficiently and effectively. CityView 8.NET™ Enterprise is powerful automation software that is designed specifically for local government and easily converts paper systems and business processes into a computerized system without costly and time-consuming programming. CityView Enterprise 8.NET enables E-government. It allows government to automate any business process internally and offer it over an Intranet or the Web with the click of a button.

CityView 8.NET Enterprise incorporates Microsoft's .net technology. The incorporation of Microsoft's .net technology allows CityView to take any form and report and save it as an .ASPX page that maintains the full functionality of the desktop form and allows it to be accessed through the Web. The .net technology allows Municipal Software Corporation to provide their users with a fully functional browser interface. CityView 8.NET Enterprise also incorporates ESRI's MapObjects to allow direct links to mapping data so users can deploy maps with their Web forms and reports by using ESRI's ArcIMS. CityView 8.NET Enterprise automatically completes the entire configuration necessary to make this work.

About Municipal Solutions Group Inc.

Municipal Solutions Group Inc. (www.MunicipalSolutionsInc.com) was formed in January 2002 as the public financing arm for Municipal Software Corporation, to provide the overall strategic leadership and guidance for Municipal Software and to build comprehensive solutions for local government on a global basis.
