## **Village of Mundelein, IL, selects CityView solution from Municipal Software**

**Victoria, British Columbia, June 16<sup>th</sup>, 2005**—Municipal Software (TSX-V:MSZ) is pleased to announce that the Village of Mundelein, Illinois has purchased its CityView product solution to provide an integrated permitting and complaint tracking system. In addition, the Village will use CityView's Application Builder to develop new applications to streamline numerous Village Services.

According to Mundelein's interim Village Administrator Michael Flynn, "We are continuing to look for new and innovative ways to provide better services to our citizens and streamline our internal procedures. CityView was the unanimous choice of our selection committee. We were impressed with CityView's ability to meet our current needs and grow with us to offer on-line services, and more, to our constituents in the future."

With a growing population of 33,000 residents and nearly 800 businesses, Mundelein is located in Central Lake County, Illinois, 35 miles Northwest of downtown Chicago. Iain McLean, Chief Executive Officer for Municipal Software commented, "We are delighted to partner with the Village of Mundelein on this project. Their decision continues to show the acceptance of CityView PreBuilt solutions and the versatility provided by the CityView platform. We have several clients in the region and can draw on our experience in Illinois to help Mundelein achieve its aims. We are confident that their citizens will benefit from improved services as a result of the purchase."

Carmen Pedraza, the Village's IT Director went on to say "we were looking for a solution to replace our existing system and found that in CityView. Not only will CityView provide us the flexibility to continue to automate our permitting and complaints systems but the Application Builder will allow our staff to maintain and expand the system to automate other Village Services."
