**MUNICIPAL SOFTWARE CORPORATION SELECTED TO PROVIDE
PLANNING AND PERMITTING SOLUTION**

City of Reedley, CA chooses CityView PreBuilts™.

Victoria, B.C., August 2, 2006—As an integral part of a Community Wide Geographic Information System project, the City of Reedley, CA purchased in July Municipal Software’s complete CityView PreBuilt™ solution. As a result, project status information will soon be available in real-time to staff and citizens alike.

Reedley will use the CityView PreBuilts across Community Development, including the Building and Planning Divisions, as well as in the Fire, Public Works, and Finance Departments. The new system replaces a combination of paper based and outdated permitting systems.

“CityView will create for us ‘institutional memory’, giving us a digital record of all property based transactions, which we will benefit from for many years to come,” said Dianne Guzman, Director of Community Development.

According to David Powell, Reedley’s Fire Chief, “The CityView PreBuilt Software system will provide huge efficiencies, new capabilities, allow us to provide better service to the public and enhanced communication. Municipal Software is an ESRI business partner and all applications are fully compatible with and will work systematically as part of the Community Wide GIS project.”

Iain McLean commented, “We are very pleased to be part of this important, community-wide project to implement an overall system in the City. The staff, council members, and public will reap the benefits of a more streamlined local government, and the City can benefit from best practices and GIS integration, right out of the box.”

Reedley, a city of 21,000, is predominantly agriculture-based but has diversified greatly in recent years. It is now experiencing rapid growth.

About The City of Reedley

The City of Reedley is home to approximately 21,000 residents. Located in the central San Joaquin Valley of California between the State's coastal mountain ranges and the Sierra Nevada Mountains, Reedley is within an hour's drive from Yosemite, Sequoia and Kings Canyon National Parks. The valley floor within which Reedley lies is one of the richest intensive agricultural production areas in the world. While the economy is predominantly agriculture-based, it has diversified greatly in recent years and the City is experiencing rapid growth.

Reedley has had a Planning Commission since the 1940's and provides full City services including a municipal airport, water system, sewer plant, trash collection and a Redevelopment Agency.

For further information about the City of Reedley, please contact David Powell at (559) 637-4230 or email david.powell@reedley.com.

About Municipal Software Corporation

Municipal Software Corporation (TSX-V:MSZ) provides easily installed, packaged software solutions that manage the everyday business processes of local governments.
