CITYVIEW PREBUILT BY MUNICIPAL SOFTWARE UNANIMOUS CHOICE FOR SMITHTOWN, NY.

Victoria, B.C., July 21, 2006—Residents of Smithtown, NY, can now look forward to a more streamlined town Building Department. Recently, the town’s selection committee chose a CityView PreBuilt® software solution, like one already in place in neighboring White Plains New York, to help it meet its current and future goals.

According to Robert Bonerba, Chief Building Official, “We believe that by using a system already in use at the City of White Plains the overall implementation and costs will fall and we will quickly begin realizing the benefits of our investment. Municipal Software, the creators of the CityView PreBuilts, brings a lot of experience in local government to their solution.”

“The Town’s goal was to acquire an integrated software solution that can be configured by us as our needs change. CityView was the unanimous choice by our selection committee to meet this goal,” said Peter Clarke, the Department’s Computer Specialist. He added, “Once CityView has streamlined our internal process, we hope to offer on-line services to our constituents to provide even better customer service to them.”

Iain McLean, CEO of Municipal Software commented, “Smithtown’s decision shows CityView’s versatility. We can draw on specific experience with a neighboring municipality to address the needs of a growing community and know that the citizens can look forward to improved services and access as a result.”

About Smithtown, NY

First settled around 1650, the Town of Smithtown, NY is located on Long Island about 45 minutes northeast of Manhattan. It is mainly a residential community with an active town center, excellent schools, and involved residents. At present, the Town of Smithtown's Building Department reviews and issues building permit applications for a population of approximately 115,000. Approximately 3,000 building permit applications are reviewed annually. Smithtown's parks, beaches and other amenities, as well as its proximity to New York City make the town an attractive place to call home.

About Municipal Software Corporation

Municipal Software Corporation (TSX-V:MSZ) provides easily installed, packaged software solutions that manage the everyday business processes of local governments. The solutions are based on 24 years of experience with a product platform that easily adapts to the changing practices of clients.
