## **CANTON, MI UP AND RUNNING IN “RECORD TIME” WITH AUTOMATED PROPERTY, PLANNING, PERMITTING, CODE ENFORCEMENT, PROPERTY INSPECTIONS AND CASHIERING SYSTEM**

**Victoria, British Columbia, March 30, 2006**—Canton, MI, residents can expect an even more efficient local government, now that their community has gone live with the first ever CityView Prebuilt™, a new software that automates its property, planning, permitting, code enforcement, property inspections and cashiering systems.

Municipal Software supplied its newly-launched, CityView PreBuilt Solution—an off-the-shelf, yet customizable software system in response to Canton’s need for a quick, convenient solution. Within 100 days of signing the deal, Canton went live. The implementation of CityView is expected to produce significant cost savings over the next ten years.

Iain McLean, Chief Executive Officer for Municipal Software said, “We are pleased that a municipality like Canton, that prides itself on delivering a high level of customer service, chose to work with CityView, despite having limited resources, limited time and the need for a quick solution. The availability of PreBuilt Solutions reduces the implementation time on projects such as this substantially and will allow us to service this market segment. We can only expect to grow faster and faster with providing customizable software solutions to municipalities.”

“It was important that our residents were not inconvenienced by legacy systems that were in need of replacement. Implementing the entire suite of Pre-Built modules required a tremendous effort by everyone involved. While not without some bumps along the way, implementation has been successful and the processes put in place are facilitating user’s ability to integrate CityView with Canton’s existing business processes.” said Judy Bocklage, Senior Planner and Project Manager.

## **About Canton Michigan**

The Canton Community is located in the State of Michigan, on the far western edge of Wayne County. Canton is approximately 20 miles east of Ann Arbor, 35 miles west of Detroit and 50 miles north of Toledo, Ohio. Canton is home to more than 75,000 residents was established in 1834 and is one of the fastest growing communities in the state today, at 1,100 new housing units per year. IKEA recently chose Canton as the location for its newest store in the US, an indication of expected growth in the area.

## **About Municipal Software Corporation**

Municipal Software Corporation (TSX-V:MSZ) provides easily installed, packaged software solutions that manage the everyday business processes of local governments.
