SCOTT COUNTY TO IMPROVE SERVICE DELIVERY WITH CITYVIEW PREBUILTS FROM MUNICIPAL SOFTWARE

Victoria, B.C., November 9, 2006—Municipal Software announced today that Scott County (MN) has selected CityView PreBuilds™ to streamline Community Development Division processes, which include Planning, Building Inspections, Environmental Health, and Natural Resources Departments.

“CityView PreBuilds are the products we needed to meet the increased demands placed on our staff by growth. They will enable our internal departments and external townships clerks to connect electronically, providing streamlined application approvals and improving turn-around times”, said Michael Sobota, Community Development Director at Scott County. “The new system will make Scott County an easier place to do business for all our customers including citizens and the building & development industry.”

Gary Shelton, Deputy County Administrator, added “CityView will help us serve our goals of merging disparate systems, improving efficiencies and achieving an interactive level of e-government operations.”

Iain McLean, Chief Executive Officer for Municipal Software, said: “Following our recently announced project with Wright County we are very pleased to add another Minnesota based client. We are committed to helping the County address the specific challenges and opportunities derived from their significant growth, and believe that citizens will soon experience faster responses and improved services with the use of the CityView PreBuilt solution.”
