EXECUTIVE CHANGES AT MUNICIPAL SOLUTIONS GROUP INC

Victoria, BC, June 14, 2007 – Effective today, Rob Bennett has resigned from his position as President of Municipal Solutions Group Inc. as well as its related companies, and has resigned from the Board of Directors of the companies. Rob co-founded the company in 1982 with a view to improving the tools that local governments use to manage and analyze information to decrease costs for those agencies, increase service levels to their customers, and to allow jurisdictions to make better decisions.

“We thank Rob for his great contribution to the development and growth of Municipal Software and wish him success in his future endeavors,” said Chief Executive, Iain McLean. “As founder of the company, Rob was instrumental in establishing Municipal Software as a leader in the delivery of software solutions to local government. We are pleased that Rob will continue to work with the Company in a consulting capacity in the coming year.”

Rob Bennett stated, “It has been a terrific twenty-five years spent in forming and building the company, but I have decided that it is best for both the company and me that I leave to pursue other interests, and allow the company to grow and prosper with the new management team that is being built. I am particularly thankful to the staff and customers of the Company who have been so supportive, and so instrumental, to its growth.”

About Municipal Solutions Group Inc.

Municipal Solutions Group Inc was formed in January 2002 as the public financing arm for Municipal Software Corporation.

About Municipal Software Corporation

Municipal Software Corporation (TSX-V:MSZ) provides easily installed, packaged software solutions that manage the everyday business processes of local governments. The solutions are based on 25 years of experience with a product platform that easily adapts to the changing practices of clients. Branded under the CityView name, the company provides a number of out of the box solutions automating practices in Property Information, Permits and Inspections, Planning, Code Enforcement, Licensing and Cashiering. CityView Application Builder is a set of application development tools that allows the client to develop unique applications to match specific needs. The company recently launched web-based services under the Local Government Manager™ name for jurisdictions looking for the convenience and cost effectiveness of a hosted application. Municipal Software offers a complete range of services from training and customer support of its suite of products to custom development for unique applications.

Forward-Looking Statements

Certain statements in this news release are not historical and may constitute forward-looking statements reflecting Municipal Solutions Group Inc's current expectation in the local government sector. These statements are subject to important risks, uncertainties and assumptions concerning future conditions that may ultimately prove to be inaccurate and may differ materially from actual events or results.
