THE CITY OF PARAMOUNT, CA SELECTS CITYVIEW™ FROM MUNICIPAL SOFTWARE TO IMPROVE SERVICE DELIVERY

Victoria, BC, August 22, 2007– Municipal Software (TSX:V:MSZ) announced today that the City of Paramount, CA has selected CityView - Property Information, Permits and Inspections, Planning and Code Enforcement – to automate and track their Community Development and Neighborhood Services activities.

With a population growth of 15% between 1990 and 2000, Paramount realized that in order to meet the increased service demands of their constituents, they needed an integrated solution to automate their business processes. CityView will help Paramount increase their efficiency and effectiveness by eliminating data silos and providing a centralized database easily accessible by all departments.

“CityView provides us with a long-term solution by allowing us to configure our business process automation rules to evolve with codes and ordinances as they change”, said Alex Fong, Administrative Services Director. “As a City that is actively involved in building and improving our community it is very important that the solution has the flexibility to change as we do.”

“CityView provides Paramount’s staff and constituents with the benefits of a more streamlined local government and the City with the tools to continue and maintain their urban renewal program,” said Iain McLean, CEO and President of Municipal Software. “We are pleased to be able to support a client that places such value on building and maintaining pride in their city. Paramount joins a growing community in California, now numbering eleven, applying CityView to address their growth needs.”

About Paramount, CA

Paramount has a growing population of 60,000 residents and is a uniquely dynamic, attractive, and well-run municipality characterized by a balanced combination of residential, industrial, and commercial developments.

Businesses are flourishing in Paramount due to a number of factors: the City's convenient location that is near four major freeways, the Los Angeles International Airport, and the ports of Long Beach and Los Angeles; its attractive land prices; its business incentive programs; and a business-friendly reputation.
